Master Gunner

Serves as the Master Gunner in the battery headquarters of the Air and Missile Defense (AMD) battery. Evaluates all positions in the firing battery. Consolidates, writes, and implements the training plan for all Patriot related equipment. Writes battery defense design for the commander's approval. Coordinates training with the platoons to facilitate unit training. Ensures the defense design is properly and tested in AMDWS, and is IAW BN directives. Coordinates with the Battalion Master Evaluator for guidance and evaluations. Ensures proper cross training positions to prevent degradation upon loss of crew personnel. Ensures all training IAW ARTEP and TSOP standards. Advises the commander on the training status of the unit.
